June 19, 2009

Dear Mr. President:

You said you want new ideas on health-care reform and so I thought I'd share my new ideas with you which will not only save us billions on health care but improve the wealth of our great nation.

- Health care is not just a **“delivery problem”** with a need for electronic records; it is also a **“modality problem.”** As long as there is a monopoly of care by pharma offering only drugs, which in the end only suppresses symptoms creating chronic health problems, our system will continue to collapse under the weight of **this failed approach and philosophy.**
- While Western Allopathic Medicine saves lives during traumas and needed surgery, it is **Western Homeopathic Medicine, the preventative, curative and restorative system of medicine** which will restore our health and wealth.
- Western Homeopathic Medicine has been taught and practiced by 1 out of 4 medical doctors in the U.S.. At the time of the **1918 Flu Pandemic, it was the homeopathic doctors and homeopathic hospitals which prevented and cured nearly 100% of patients using 2 main remedies: Gelsemium and Bryonia, each at a cost of pennies and with no side-effects!**
- Western Homeopathic Medicine can cure pneumonia at a cost of \$1.26 with a death rate of <1-3% while Western Allopathic Medicine can cost anywhere from \$300 to over \$4000 if hospitalization is required with a death rate of 18%. **The cost savings using Homeopathic Medicine is significant!**
- Western Homeopathic Medicine is **a patient-centered, disease-prevention modality which can be taught to the public in caring for their acute illnesses effectively at home** and for pennies with no-side effects. It is true sustainable, affordable, **scientifically proven effective medicine** and the **green medicine for the environment** with no pollution to our water supply. **It is the quantum medicine of the 21st Century using nano-pharmacology.**
- We are **moving from an outdated and incorrect “germ theory of disease”** to a **“resonance theory of cure.”**

In order to be successful in reforming our health-care system we must employ a new modality of health care. Western Homeopathic Medicine is the effective and sustainable, green Medicine of the 21st Century and one of the great answers in restoring our health and our financial wealth.

Sincerely yours,
